

UltraMean²

Stain Remover and Cleaner

Part No. 7600

DESCRIPTION

ULTRAMEAN-2 Super Power Powder is a highly concentrated Sodium Carbonate Peroxyhydrate Non-Chlorine stain remover, cleaner and bleaching agent. UltraMean-2 has the cleaning & deodorizing strength for the toughest interior or exterior mold and mildew stains. Its cleaning power can be used for all types of cleaning needs. With UltraMean-2 Super Power Powder you control the force of the clean by matching the solution strength to the difficulty of the stain.

FEATURES

- Chlorine Free
- Color Safe on Most Surfaces
- Environmentally Friendly
- Deodorizing
- Cold water compatible
- Cost Effective
- No Waste

SUGGESTED APPLICATIONS

- Clean Composite Decking Materials
- Remove mold/mildew stains from most surfaces
- Flood cleanup, during renovation, or remediation
- Use outside the house on algae stained roofs, vinyl and aluminum siding, and wood decks
- Use inside on fabrics, food stained plastic storage containers, Formica stained counter tops, ceramic tile grout, shower curtains, coffee and tea makers, wood or painted surfaces
- Clean boat canvas, vinyl, rope, teakwood, mildew stained tents, camping gear, coolers, and lawn furniture
- Septic System Enhancer
- Sanitize garbage cans, garbage disposal or fish tanks
- Use as carpet cleaner or to eliminate pet stains or odors
- Virtually anything that is water washable!

STORAGE

- Store in a cool, dry place
- Keep away from heat and heat sources
- Rotate inventories (first in, first out)
- Keep away from organics, acids, reducing agents and metallic contamination

DO NOT ALLOW TO FREEZE
KEEP OUT OF REACH OF CHILDREN

USAGE GUIDELINES

- UltraMean2 is a non-chlorine bleaching agent. Always test for colorfastness by first applying UltraMean-2 powder solution to an unseen area, rinse with fresh water and then allow it to dry before evaluating surface. Some stains may require stronger, longer or additional treatments.
- **Do not use** on wool, silk, leather, or anything that is not water tolerant / washable. Do not use on red wood or other high tannin woods as it may darken surface.
- Once mixed, solution should not be left in a sealed container. The solution will continue to give off oxygen and the container may enlarge and leak.
- UltraMean-2 will NOT remove mineral deposits and rust stains as efficiently as the “liquid concentrate” original formulation of UltraMean.
- Greasy stains may require a mild detergent treatment.
- Always start with the weakest solution and increase strength of UltraMean2 as necessary.
- UltraMean2 decomposes into naturally occurring elements of oxygen and soda ash.
- Sodium percarbonate solutions may remain active for up to 3 hours, after which they should be discarded.
- Unused material may be poured down the drain. It will help clean and deodorize your disposal or toilet.
- Sodium percarbonate solutions are most effective when mixed and used in warm to hot solutions (100 –150°F).

CLEANING SOLUTIONS MIXING GUIDE

1 cap = 4 ounces

Cleaning Strength	Water	UltraMean2	Approx. SF of Cleaning Area/ Gal
General Purpose	1 Gallon	1-3 full caps	250
Medium Duty	1 Gallon	2-5 full caps	100-200
Deck Cleaning (Severely Stained Composites)	1 Gallon	4-8 caps	50-100
Heavy Duty	Pre-wet surface	Broadcast and Scrub onto Surface	Up to 50

UltraMean2 Stain Remover and Cleaner

MIXING INSTRUCTIONS

Add UltraMean2 to 1 gallon of warm or hot water. Mix until all the powder crystals have been dissolved. Do not mix UltraMean2 with any other chemicals or cleaners as hazardous fumes may result. Keep away from face when mixing solution. Always add UltraMean2 crystals to water, not water to crystals to prevent foaming and spilling of the product.

APPLICATION INSTRUCTIONS

UltraMean2 can be applied using pump sprayer, spray bottle, sponge mop, broom, brush, cloth, or sponge. It can also be used as a soaking solution.

Water Damage Cleanup & Mildew Removal: Apply to surface, let stand for 20-30 minutes staying wet, scrub with a brush or sponge, rinse thoroughly.

Acoustic tiles: Spray on tiles, wait 15 minutes, rinse.

Mops: Add 1 capful to 1 gallon of hot water, soak overnight, rinse.

Basement /Crawlspace Cleanup: Apply general cleaning solution to surface, scrub, wait 30 minutes, rinse.

Fencing, Concrete, Siding, Wood Decks, Stucco, Indoor-Outdoor Carpeting: Apply general cleaning solution, Let stand 10-30 minutes, scrub if necessary and rinse thoroughly.

Garbage cans: Add 1/2 capful per gallon of water and let soak to deodorize.

Roof cleaning: Best done on an overcast or cool day. Mix solution to general/heavy duty strength, apply with pump sprayer to saturation. Allow to stand 20-30 minutes, rinse thoroughly with a pressure washer no closer than 20 inches to the surface with less than 2000 psi. Wash entire sections at a time, even if it looks clean. Cleaning roofs is a very dangerous operation. Extreme care should be used. (We recommend a professional perform this work).

Lawn Furniture: Add 1/2 capful to a quart of hot water, scrub furniture, wait 15 minutes, then rinse.

Grout, Fireplaces, & Bricks: Using the general cleaning solution, apply to surface using a scrub brush or broom. Allow to stand 10-20 minutes, rinse thoroughly. For stubborn stains, apply a paste with powder and water, let stand 30 min., scrub and rinse.

Stained plastic ware, dishes, dish rags and towels: Add 1-2 caps of UltraMean2 to container or dish water and soak for at least 15 minutes.

Drains and Disposals: Add 1 cap of UltraMean2 in 8 ounces of hot water and allow solution to sit in drain overnight to keep clear and smelling fresh.

Kitchen: To clean and deodorize your whole kitchen, use a general cleaning solution and apply with a soft cloth, squirt bottle or sprayer. Let stand 10-20 minutes, wipe and rinse thoroughly. Leftover mixed solution cannot be reused.

Bathtub and shower: Make a paste with hot water, scrub with a cloth or sponge, wait 15 minutes, rinse.

Shower curtains: Soak overnight in solution of 1/4 cap to 1 gallon hot water.

Toilets: Add 1 capful, wait 15 minutes, scrub.

Septic Systems: Add 1 cap to toilet and flush twice a week.

Coolers, boat sails, cushions, ropes, camping gear, tents, tarps: Add 1 cap per gallon of hot water, soak for 20-30 minutes, rinse.

Laundry: UltraMean2 is used to de-stain, deodorize and whiten. It is very effective as a laundry presoak for heavily stained articles. For light soils, add one ounce with your laundry detergent per load.

Composite Decking: Saturate deck in sections, allow to soak for 10-45 minutes. Scrub with soft-bristled brush, rinse thoroughly. See Composite Deck Cleaning Guide.

SPILLS

Do not return spilled material to storage container. Spills should be swept up and held in a dedicated plastic container for immediate use or disposal in accordance with local regulations. If permitted, wash to drain with large amount of water.

WARNING

Avoid contact with eyes and mucus membrane or prolonged contact with skin. Do not ingest. Consult Safety Data Sheet.

Contains Sodium Percarbonate and Sodium Carbonate (oxidizers). When damp and in the presence of flammable materials, spontaneous combustion is possible.

LIMITED REMEDY

Follow the instructions carefully. If your application is not covered by these instructions, call 863-665-0203 before using this product. Buyer agrees that if HomeWood Solutions' products are proved defective, the user's exclusive remedy will be, at HomeWood Solutions election, to replace the defective product or refund the purchase price for the defective quantity.
